

**Wind tested and engineer certified  
to speeds up to and beyond 160kph**

# overview

Ausbrella is a stunning new umbrella range ideal for resorts, council open areas and around the pool at home. With a wide range of features and benefits, all covered by patents pending this is definitely the umbrella of the future. Ausbrella is the latest creation of Awnet founder Chris Pierias. Awnet is Australia's largest manufacturer of commercial market umbrellas and breeze barriers. A number of years ago Chris realised the need for a stronger, more robust and much safer umbrella. Chris decided to totally reinvent the umbrella. The result was Ausbrella.

Some of Ausbrella's features are:

- Twin skin aluminium pole for superior strength and light weight. (Patent Pending No, 2014200765.)
- Each umbrella is fully engineered and comes with an engineer's certificate.
- Bolted on fabric cover for greater security,
- Easy opening system with no ropes or pulleys
- Matching in-ground stainless steel socket.

Ausbrella is available in three classes, with each relating to a wind region across Australia.

## Storm 135

Rated to 135kph

## Hurricane 160+

Rated to over 160kph

Designed and patented, the Ausbrella umbrellas are an exceptional range of umbrellas, combining an even stronger version of Awnet's interlock frame system, Ausbrella's new twin skin pole technology and the easy opening system every part of an Ausbrella umbrella has been completely reengineered.

This is an umbrella where no expense had been spared and no short cuts taken to achieve the target of being the very best in quality and safety. This pursuit of excellence has allowed us to give these umbrellas industry leading manufacturing warranties.

There is an Ausbrella suitable for every part of Australia's harsh environment

Ausbrella umbrellas come with up to a 10 year guarantee!

Being proudly Australian made, Ausbrella stands behind every umbrella and being a local manufacturer we will respond rapidly to any warranty claim.
