Proprietary Staple in System

Digital or Screen Printed Branding

Round or Square Legs

Securing Methods Available

Awnet's Style 8 fully framed aluminium cafe barrier gives customers comfort all year round where weather conditions prevail that do not allow for the standard low barriers.

Using Awnets own custom, proprietary staple in system for the canvas or vinyl insert and finished off. A full clear panel, or split in half. Top half clear and the bottom half printed with your own branding.

For further information visit the Awnet website or contact Awnet directly for ordering.
