Digital or Screen Printed Branding

Round or Square Legs

Securing Methods Available

The Style 9 cafe barrier is designed with a Lift-off top section. The removable top allows for comfort during the warmer seasons and added protection during the cooler seasons.

The top panel insert is with deluxe clear PVC so the screens will not wrinkle and distort over time, making an affordable but uncompromised image at your premises.

For further information visit the Awnet website or contact Awnet directly for ordering.
