In Ground Sockets

Want to let your imagination and creativity run wild? Awnet excel in creating custom designs tailored specifically to your needs. You choose the size, shape and style of umbrella. Choose what colour frame you require. Max and match the umbrella canopy colours. Print whatever you like!

Awnets custom umbrellas use the same componetry as all the other umbrellas in the Awnet range. There is no skimping on quality!

But please, although Awnet love the challenge of a custom design, keep in mind that not everything is possible. For further information visit the Awnet website or contact Awnet directly for ordering.
